

Introduction to the course

Introductions

I can start this off. Then we can go around the room, thinking about

- what you want to get out of the course
 - how theory fits into your current research (if you are currently doing research)
 - any worries/feelings/questions/concerns about the course
-

Syllabus

Work through syllabus, clarify structure, etc.

- syllabus
-

Course website

Go through the course website and make sure everyone has easy access and is clear on how to get the lecture notes, readings, and homeworks.
